

## GUY CHAUMONT

# BOURGOGNE PINOT NOIR

### Why it's important:

You can offer your customers a true red Burgundy that tastes fantastic, is reasonably priced, and is *certified* as made with organically grown grapes.

### Long-established organic vineyards produce healthier, better-tasting grapes

- Newer organic vineyards don't produce the quality or consistency of older ones
- From the Cote Chalonnaise region in the heart of Burgundy
- Vineyards converted to organic growing in 1965
- Grapes are fertilized and protected from pests naturally – no synthetics
- No additives; unfiltered for maximum flavor; only a trace of sulfites

**Grapes:** 100% Pinot Noir

**Region of origin:** Cote Chalonnaise, Burgundy, FR

**Taste:** Rich berry and cherry flavors lead to an earthy, slightly smoky finish

**Pairing:** Roast chicken, grilled salmon, beef and pork dishes
