

CATARRATTO

Region: Terre Siciliane IGP, Sicilia, Italy

Description: From the vineyard based in Abbadessa in Marsala a unique interpretation of this grape variety. Left macerating on skins but taking just the free run of the must the wine goes thru fermentation on native yeast and malolactic. The result is a wine with an intense deep yellow. The nose is complex of yellow flowers, lemon zest and oranges. The mouth is full with both notes of oranges and tangerine and nutmeg and smoky flavors.

Temperature of serving 65F.
