

MONEMVASIA METODO CLASSICO

Region: Piemonte, Italy

Description: Made from an old clone of Greek white malvasia brought in the 1700 to Italy (read below on the still version and in our presentation), this is a classic method aka *champenoise* brut. The wine stays on fine lees in the bottles to an extent of 36 months before the *degorgement*. On the nose delivers an interesting intense scent of peaches and rose petals that is then counterweight by the minerality in the mouth with vibrant acidity.
